COMPETITION

History ESSAY

THE BEST ENTRY WILL RECEIVE £100 in vouchers

At the University of Exeter, we want to hear your ideas about history

We're inviting A-Level, IB, BTEC and GCSE students in any subject to send us a response to one of the following big questions:

- Explain which periods of History students should learn about in U.K schools?
- Are humans still evolving?
- Is gender important in History?

There will be two prizes. One for the best Essay/creative piece (1000 words), and one for the best video entry (6-7 minutes).

To enter, simply email your piece to studentoutreach@exeter.ac.uk

Be sure to include your name, age, school, details of the qualifications you are studying, and the name of a teacher who knows you are entering. The deadline for entries is 30th November. Winners will be announced in December 2021

This essay challenge is a great way to develop your research and independent learning skills before coming to university.

YOUR JOURNEY TO HIGHER EDUCATION >

RUSSELL
GROUP

Year 13

Applying to UCAS ?

Below is the college process for doing this. Year 13 tutors are the first point of call for checking applications and personal statements.

1. Get your tutor to check your application including your personal statement. They will tell you if there are any mistakes/errors.
2. If everything is correct, your tutor will attach a reference, add your predicted grades (you need to get teachers to write these on your predicted grade sheet – you can get a sheet from the careers office) and tell you to pay for your application.
3. You should then come in person to the Careers office in the LRC to book an appointment with me (SWI) **DO NOT** pay for your application or try to book an appointment with me unless your tutor tells you to.
4. Either Helen Taylor or I will quickly check your application and if everything looks ok, will book you an appointment. You will be told if there are any mistakes/errors/missing information that you need to change/add.
5. When everything is correct, during your appointment with me, your application will be sent to UCAS.

Things to remember –

1. Paying for your application (pay and send) does not send your application to UCAS. It comes to me and only I can send it on to UCAS. If you are experiencing financial hardship and think you may not be able to afford to apply see me.
2. We can only process applications that have been linked to us with the buzzword Woking22.

Do you need help writing your UCAS personal statement?

A number of university representatives will be coming into college to offer 1:1 personal statement writing advice and feedback.

To book a slot you must come in person to the Careers Office in the LRC.

We do not take bookings via Teams or email.

By booking you are making a firm commitment to attend. Please come to the Careers office to book a slot- limited spaces, so first come first served.

There are a few slots still available on **8th November** with University of Winchester. There are also lots of slots available on **18th November** with Roehampton University.

You do not need to be applying to these universities to get help from them!

Dyson - Study engineering. Work on real projects. Get paid a salary.

Enjoy a unique student experience on our immersive BEng (Hons) Engineering degree apprenticeship. The Dyson Institute of Engineering and Technology is unlike any other higher education institution. It's for those with a passion for solving problems and a fascination for how things work; people who'd rather get hands-on with real engineering challenges.

The Dyson Institute of Engineering and Technology is unlike any other higher education institution. It's for those with a passion for solving problems and a fascination for how things work; people who'd rather get hands-on with real engineering challenges.

During term-time, two days a week are dedicated to pursuing an academically rigorous engineering degree. With a year group of around 40, apprentices will know their lecturers well and teaching is delivered in bespoke lecture rooms and labs.

Three days a week will be spent with the Global Engineering team, working alongside Dyson technology experts. With their guidance, apprentices can apply what they learn to real projects and develop their professional skills

Apply now [Home - Dyson Institute](#)

Applications for 2022 are open until the 21st of November.

Network Rail Apprenticeships:
If experiencing projects and possibilities matters to you.
You matter to us.
