Year 12 students -Opportunities in accountancy at BDO

School leavers at BDO can truly make an impact from day one - with early client exposure and the kind of complex, challenging problems that will really make the most of their skills. Our four-year School Leaver Programme is an exciting way for ambitious individuals to earn while they learn.

School leavers can join us in either Audit, Advisory, Tax or Business Services & Outsourcing departments (we call them 'streams') where they'll study for their professional qualifications. Within four years, they'll be a qualified accountant as

well as achieving a Level 7 Accountancy/Taxation Professional Apprenticeship. professional qualifications. Within four years, they'll be a qualified accountant as well as achieving a Level 7 Accountancy/Taxation Professional Apprenticeship.

Why BDO?

We're one of the UK's largest Accountancy and Business Advisory firms. We provide Audit, Advisory, Tax and Business Services & Outsourcing services to clients across the UK and the globe. When the most ambitious organisations need advice on accountancy and business, they turn to us. We provide the perfect platform for young people to jump start their career, discover the best use of their skills, and reach their potential.

Apprenticeships with Dyson - Study engineering, Work on real projects, Earn a salary.

Our undergraduates enjoy a unique student experience on our immersive BEng (Hons) Engineering degree apprenticeship. The Dyson Institute of Engineering and Technology is unlike any other higher education institution. It's for those with a passion for solving

problems and a fascination for how things work; people who'd rather get hands-on with real engineering challenges.

During term-time, two days a week are dedicated to pursuing an academically rigorous engineering degree. With a year group of around 40, our undergraduates get to know their lecturers and peers while learning in bespoke lecture rooms and labs.

Three days a week our undergraduates will be part of the Global Engineering team, working alongside Dyson technology experts. With their guidance, undergraduates can apply what they learn to real projects and develop their professional skills.
