#### UPDATE BRIEFING FROM FINANCE DIRECTOR

The Finance Director, Fiona Munday, presented a Finance Briefing paper including updates on September 2018 enrolments, cash position, August 2018 full year results and summer building works.

Trustees noted that the number of students enrolled at the date of the meeting was 1421 against a forecast number of 1340 students. The report detailed the impact of this number of students on the two year forecast for 2018-19, although noting that the final number remains fluid until the census day.

Cash at bank as at 31<sup>st</sup> August was artificially high due to overpaid grant from ESFA; an administrative error which had been notified to ESFA.

The August 2018 full year results indicated an unaudited August result of a surplus of £377k against the original academy budget.

The roof project has progressed well with the work on budget and on schedule to be completed by November. Other works completed over the summer included refurbishment of classrooms and toilets.

Trustees discussed with the Finance Director the circulation of management accounts. Trustees noted received and noted a recent letter from the Chief Executive of ESFA to all single academy trusts including the following advice referring to the latest edition of the Academies Financial Handbook:

#### • Scrutinising the budget (2.3.3)

The handbook has always required trusts to set a balanced budget and prepare monthly financial management reports so that you can be satisfied, as accounting officer, that spending is being properly monitored and controlled during the year. This is not changing. However, the board also has an important oversight role to play. This is why we are making clear in this year's handbook that all trustees need to see your financial reports six times a year and in the case of the chair this must be every month.

It was **agreed** that the management accounts will be sent to **all** Trustees monthly. The Finance Director confirmed that that August management accounts will be circulated to the Board by the end of September and advised that the accounts will not include anything unexpected.

The Finance Director left the meeting at 5:30pm

## PRESENTATION ON EXAMINATION RESULTS 2018

Assistant Principal, Karen Foan, gave a presentation of results for summer 2018 and tabled a summary paper with analysis of results and data across each curriculum level showing data comparisons with previous years and National Averages noting that some final re-marks were still awaited.

Key points which were highlighted and discussed included:

- The introduction of linear A levels makes it very difficult to compare the results against last year's results
- Overall pass rates increased from 95.9 to 96.9 %
- Overall High pass rates increased significantly from 42.5 to 54.0%
- Overall Retention has increased very slightly

There was an issue with the data in relation to the overall achievement rate showing a slight reduction and a review of this was awaited which should result in a significant increase.

There was a slightly higher level of dropout in the second year possibly due to there no longer being AS exams which were used as an end point by some students.

It was suggested that the success criteria in the governance improvement plan should have more measurable targets and it was **agreed** that the Clerk would revise this and incorporate any further comments from Trustees and circulate a revised version after the meeting.
